+1 352 219 0738 — sruthireddy3@gmail.com — linkedin.com/in/shruthi-reddy-yaramada-8385711b1/

Passionate software developer with 2 years of experience in Java, skilled in tackling challenging roles across backend and frontend development, database management, and agile workflows. Eager to solve real-world problems and build scalable solutions.

EDUCATION

University of Florida, Gainesville, FL

Aug 2024 – Aug 2026

Master of Science in Computer Science

Indian Institute of Technology, Goa

Aug 2018 – June 2022

Bachelors of Technology

SKILLS

Languages: Java, C, C++, Python, Go, MATLAB, Pony, MySQL, MongoDB

Development Tools: Spring Boot, HTML, CSS, Bootstrap, JavaScript/TypeScript, Docker, Angular, JFrame

Technologies: Kafka, Redis, AWS, Firebase, Pandas, Numpy, Sklearn, TensorFlow

Relevant Courses: Data Structures, Analysis of algorithms, Operating systems, Distributed Systems, Machine Learning, Artificial Intelligence

PROFESSIONAL EXPERIENCE

Jio Platforms Limited

July 2022 – June 2024

Software Development Engineer in G2C Notification Team

Navi Mumbai, India

- Developed notification services using **Spring Boot** and **Java**, integrating SMSC and SMTP protocols. Delivered 1M+ notifications monthly, while maintaining a 98% delivery success rate on a \$500/month infrastructure.
- Enhanced performance using **Kafka** for asynchronous processing, improving **Rest API** response rates by 40%.
- Optimized application performance by refining **MongoDB** and **SQL** queries, leading to a 30% decrease in data retrieval time for key services.
- Managed **CI/CD** with **Azure DevOps**, ensuring seamless deployments and resolving 99% of critical bugs within SLA.
- Led WhatsApp notifications integration, reducing messaging costs by 30% and expanding engagement by 25%.

PERSONAL PROJECTS

Attendance Management System

June 2022 – July 2022

Full Stack Development Project

- Developed a Java-based system using **JFrame** and **MySQL** for automating attendance tracking via QR codes, reducing manual effort by 35%.
- Added secure user management with profile image uploads and created dynamic attendance reports.

Hand Gesture Recognition

April 2022 – May 2022

Machine Learning Project

- Implemented Hand Gesture classification using **CNN** for accurate recognition and classification
- Boosted the model's performance to 86% accuracy by applying advanced image data augmentation techniques
- Tech Stack: **Neural Networks**, Machine Learning (Python, TensorFlow)

On Demand Car Wash System

Dec 2021 – March 2022

Full Stack Development Project

- Engineered a comprehensive web application utilizing **Angular** and **Spring Boot** Microservices, implementing role-based logins for over 300 users across three distinct user groups: customers, washers, and admins.
- Created a booking system, real-time tracking, and review mechanisms.

ACHIEVEMENTS AND EXTRACURRICULARS

- Organized annual inter-college sports events for 20+ teams and managed logistics.
- Secured 1st position in the Pokethon coding event at IIT Goa.
